

WELCOME TO THE LEGACY WALL

The Legacy Wall is a one-of-a-kind traveling exhibit that features 125 “mini-biographies” of LGBT people from every walk of life. This powerful, positive, and inspiring exhibit is 24’ long by 8’ tall by 6’ deep. Its 400 square-feet of digitally interactive content is international and multicultural, spans 4000 years of history, and has been substantially vetted and sourced. It has been thoughtfully designed to enlighten people about the many important roles LGBT people have played in shared human history – information which helps to boost the self-esteem of LGBTQ youth who are forced to grow up without the benefit of historically significant role-models. Learning about these accomplishments has been shown to dramatically lessen incidences of bullying by encouraging a culture of respect and an appreciation for diversity. The Legacy Wall uses the lessons of history to spark conversations and promote a feeling of safety and belonging in the classroom – giving our children hope by improving their outlook on life.

HOSTING AND SPONSORSHIP OPPORTUNITIES

*Institutions from every sector of community stakeholders are encouraged to consider hosting the installation in their facility. The Legacy Project offers colleges, universities, libraries, cultural institutions, government facilities, and corporate centers an opportunity to have this unique, thought-provoking display installed in their public areas for patrons, employees, donors, and constituents to peruse, or for use as part of educational exercises during the school year. Hosting the Legacy Wall in your facility is an ideal way to involve business resource groups, diversity training endeavors, cross-department synergies, campus pride organizations, gay-straight alliances (GSAs), and local community groups in a shared experience which truly underscores LGBT contributions during this critical time in our history when so much has been accomplished, yet so much vulnerability remains. **For a tax-deductible donation (plus transportation and installation team lodging, if needed) the Legacy Wall can be set-up for negotiable periods from two weeks to one month. All contracts include set-up/breakdown, marketing support, and a formal presentation.***
