Call 847-769-2288 for More Information

*The Legacy Wall is 24' long x 8' tall x 6' deep... nearly 400 square-feet of biographical content in a 360° doubled-sided island that is bathed in LED lighting from above and below. In addition to compelling biographies, each element is linked to a digital information portal accessible through user smartphones to make video and education resources available on demand for all visitors.*
